TAYLOR'S REGULATION ROULETTE WHEEL

BOWL or RIM. 31 $\frac{1}{8}$ inches in diameter. Built up in laminated sections of Spanish Mahogany and American Black Walnut, lock jointed and accurately turned to correct size and pitch. Veneered with Satinwood and Rosewood and striped with Ebony.

TRACK. The liveliest track ever made. Ball Race a single piece of close grained Satinwood with or without Ebony stripe. Lower track a heavy inlay of Ceylon Ebony. The upper track genuine East Indian Satinwood, top rail solid Rosewood.

WHEEL. 21 $\frac{7}{8}$ inches in diameter. Built up of 72 sections of Spanish Mahogany and American Black Walnut, laminated and lock jointed, veneered with Satinwood, Ebony striped. The Wheel revolves absolutely true due to improved method of turning and Partitions are SPACED and PLACED accurate and tight with a special precision machine. Rim of Wheel protected with heavy brass band shrunk into position and carefully machined. Entire unit balanced before painting.

BEARINGS. The tool steel ball bearing shaft is carefully machined and ground to perfect running fit. The ball bearing race is made of finest high speed tool steel, easily removed for bearing replacement. Entire assembly gives the wheel a fine creep with practically no friction.

METAL PARTS. Partitions and Bumpers are carefully machined, accurate and uniform in size, chromium plated. The top ornament is artistically designed, beautifully turned and handsomely finished in chromium plate.

PAINTING. The wheels are carefully filled and the painting and lettering is the work of artists of many years experience, using the best selected imported colors and gold leaf, protected for service with a heavy clear Duco finish. The balance of the wheel is handsomely finished with clear Duco and is moisture proof in any climate.
